

FCC,
Please reject NAB's Petition 04-160. I listen to XM radio all the time and enjoy it. I really don't care what NAB's problems are with XM. I pay for the service and it's my right to hear what XM broadcasts. I am tired of local companies whining about market share. If they had something interesting to listen to I would. I really don't care about local broadcasting and commercials from local broadcasters. That's why I don't listen to local radio and get all I want to listen to from XM.

Thank you.
Doug Cramer
